◆ Flipkart-Style Product Listing UI – A Mini Project Using HTML & Bootstrap Icons! ◆

🚀 Mini Project: Flipkart-Style Product Listing 🚀

I recently designed a **Flipkart-style product listing UI** using HTML & Bootstrap Icons to showcase product details just like e-commerce platforms do! 🛒 ✨

💻 Project Overview:

I built a structured product card displaying key features, ratings, and pricing similar to Flipkart's product page. This project helped me improve my **frontend development skills**, focusing on **UI structuring, Bootstrap Icons, and semantic HTML**.

◆ Features Implemented:

- ✅ Flipkart-style product layout
- ✅ Dynamic star ratings & heart icon
- ✅ Price breakdown with discounts
- ✅ Key product specifications
- ✅ "Only Few Left" urgency indicator

💡 Tech Stack Used:

- ✓ HTML
- ✓ Bootstrap Icons

🔗 Code Snippet:

```
<!DOCTYPE html>
```

```
<html lang="en">
```

```
<head>
```

```
  <meta charset="UTF-8">
```

```
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
```

```
  <title>Document</title>
```

```
  <style>
```

```

.product{
  display:grid;
  grid-template-columns:3fr 7fr 2fr;
  font-family:Arial;
}
.rating{
  background-color:green;
  color:white;
  padding:3px;
  border-radius:5px;
}
li{
  margin-bottom:5px;
  margin-left:-15px;
}
</style>

<link rel="stylesheet" href="https://cdn.jsdelivr.net/npm/bootstrap-
icons@1.11.3/font/bootstrap-icons.min.css">

</head>

<body>

<div class="product">

  <div>

  </div>

  <div>

    <div><span class="bi bi-heart-fill"></span><span><font size="5" color="blue"><b> REDMI
13c 5G(Starlight Black,128GB)</b></font></span></div>

```

```
<br>
<div><span class="rating">4.3 <span class="bi bi-star-fill"></span></span> 39,936
Ratings & 1,598 Reviews</div>
<div>
  <ul>
    <li>4 GB RAM | 128 GB ROM</li>
    <li>17.12 cm (6.74 inch) Display</li>
    <li>50MP Rear Camera</li>
    <li>5000 mAh Battery</li>
    <li>1 Year</li>
  </ul>
</div>
</div>

<div>
  <div>&#8377;10,288</div>
  <div>&#8377;13,999</div>
  <div>Free Delivery</div>
  <div>Save Extra With Combo Offers</div>
  <div>Only Few Left</div>
</div>
</div>
</body>
</html>
```

Why This Project?

This project gave me insights into structuring real-world **e-commerce UI components**, making pages **responsive and user-friendly**.

 Looking for Feedback!

I'd love to hear your thoughts on this project! Feel free to drop a comment or suggestions. 😊
